Experience

Full Stack Developer, OMIX Solutions

Dhaka, Bangladesh · January 2025 – Present

- Develop and maintain responsive websites and web applications for business, e-commerce, healthcare, and service-sector clients.
- Implement interfaces with Next.js, React, TypeScript, JavaScript, HTML, and CSS, including reusable components, navigation, and forms.
- Translate client requirements into website features and support implementation decisions, testing, launch, and post-launch improvements.
- Troubleshoot application and website issues, customize existing solutions, and maintain responsive presentation across screen sizes.
- Support deployment, hosting setup, domain configuration, SSL, backups, and ongoing technical maintenance.

Selected projects

OmixDesk — Agency operations application

Independently built full stack workspace for CRM leads, client records, projects, tasks, proposals, invoices, role-based access, and a separate client portal. Next.js, React, TypeScript, Tailwind CSS, Supabase, PostgreSQL.
desk.omixsolutions.com · github.com/arafashrafee/OmixDesk
